you put 4 hinges on this hinge design. You were
able to use four hinges because this design has 2
splines which gives you 4 spots to put the four
hinges. For further help and for some more help

Windows version for Tinkercad 2.0.7 with some tweaks. This version is the same as Tinkercad 2.0.7 plus: .Q: PIL: improve contrast of images I am trying to improve the contrast in images using PIL. I found many algorithms that do the trick, but I'm not entirely sure which one is the best. I'd like to use the best of them, but not get too far. The goal is to make the images as beautiful as possible. So I need a library that will be fast. Also I need to know how to set them right. Which of the 2
