the title of dave aud's cherry cherry boom boom ep is an allusion to the music that inspired him. dave aud is the alter ego of the dutch producer don joe. the duo originally released a couple of free tracks in their own names, but then, they re-released them in 2016 as a free ep, not myself. the album donjoe features 15 tracks, some of them re-worked versions of dave aud's and don joes own songs, and his cherry cherry boom boom ep is a free version of it. that year, 2000, was a year of unexpected musical discoveries for shaggy. the top-selling album of that year was toni braxton's un-break my heart and the next was dido's no angel. the follow-up was the gospel album away with the fire, recorded with his previous band shaggy and the wailers, and signed to clive davis' arista label.

unfortunately, the album was overshadowed by the poor sales of Shaggy's album of the year, *Angel* and it was not released in the UK until 2002. By then, Shaggy and the Wailers had disbanded and Shaggy was now signed to Universal. Shaggy and the Wailers' final recording was the follow-up to *Hot Shot*, an album known as *Angel* (no relation to the no.3 charting album by the same name) released in 2001. The album's lead single was *Angel*, but it failed to be as successful as the lead single from the previous album. By then, Shaggy was becoming increasingly unfashionable among the public. His music was now driven more by marketing than by his own creative instincts, although he continued to release music with his own production team, Ozone Productions. He also now had a solo record label under his name, XL Recordings. The final Shaggy album of the 1990s was the biggest of all, *Boombastic*. Released in 1999, the album had the biggest lead single of his career, *Shaggy*, a song sung in Jamaican Patois. The record was produced by his friend Portia Smith and featured contributions from reggae legend Alborosie

and dennis brown. it was a huge record for shaggy in the uk, but failed to chart in the us, where it was released in late october 2000. it was a big success in europe, however, and eventually was certified platinum there, although it never cracked the charts in the us.
