leonardos painting technique fascinated for centuries. the artist employed so many different drawing methods and painting techniques - described in leonardo s original notebooks - that scholars had long struggled to uncover the secrets behind his highly individual visual language. leonardo da vinci: painter at the court of milan offered visitors an unprecedented look into the preparatory process of this master - the world s greatest painter. now the techniques and theories of this remarkable artist are being celebrated for the first time in a touring exhibition. this exhibition also drew on the most extensive collection of leonardo s visual notes and sketches to-date to demonstrate the remarkable range of ideas and experiments that the artist had been conducting up until his death in 1519.

inspired by the recently restored national gallery painting, the virgin of the rocks, this exhibition focused on leonardo as an artist. in particular, it concentrated on the work he produced as court painter to duke lodovico sforza in milan in the late 1480s and 1490s. si el ejemplar esta no cuadro ha de ser remedio, como lo indica la autorizacion 6961-2016 de la real academia de buenas letras, ni ser nueva. si, como decciona la sociedadleonardo de gavello, el trabajo ha de ser libre de derechos.

leonardo was not the only genius to consider himself an engineer. in fact, his interests in topology, geometry and mechanics allowed him to build a remarkable series of instruments. leonardo s workshop was amongst the most sophisticated and productive of its time. from it emerged ingenious inventions such as the screw, the bodkin (dagger), the pry, the vise, the derrick, the crane, the boiler, the ballista, the chest and the parachute.
